Author index

Allen, J.F. and Melis, A.
The rate of P-700 photooxidation under continuous illumination is independent of State 1–State 2 transitions in the green alga *Scenedesmus obliquus* (933) 95
Amesz, J., see Vos, M. (933) 132
Astier, C., see Kirilovsky, D. (933) 124

Barber, J., see Chapman, D.J. (933) 423
Bertrand, P., Guigliarelli, B., Gayda, J.-P., Sétif, P. and Mathis, P.
An interpretation of the peculiar magnetic properties of center X in Photosystem I in terms of a 2Fe-2S cluster (933) 393
Biaudet, P., De Kouchkovsky, F. and Haraux, F.
ΔpH-activation of the thiol-modified chloroplast ATP hydrolase. Nucleotide binding effects (933) 487
Bisaccia, F., Indiveri, C. and Palmieri, F.
Purification and reconstitution of two anion carriers from rat liver mitochondria: the dicarboxylate and the 2-oxoglutarate carrier (933) 229
Boekema, E.J., Van Heel, M. and Gräber, P.
Structure of the ATP synthase from chloroplasts studied by electron microscopy and image processing (933) 365
Bolgiano, B., Smith, L. and Davies, H.C.
Kinetics of the interaction of the cytochrome *c* oxidase of *Paracoccus denitrificans* with its own and bovine cytochrome *c* (933) 341
Brettel, K., see Schlodder, E. (933) 22

Camp, P.J., Miernyk, J.A. and Randall, D.D.
Some kinetic and regulatory properties of the pea chloroplast pyruvate dehydrogenase complex (933) 269
Carter, K., see Georgiou, C.D. (933) 179
Chapman, D.J., Gounaris, K. and Barber, J.
Electron-transport properties of the isolated D1-D2-cytochrome *b*-559 Photosystem II reaction centre (933) 423
Choo, W.M., see Hadikusumo, R.G. (933) 212
Cokic, P., see Georgiou, C.D. (933) 179
Cope, M., see Wray, S. (933) 184
Coughlan, S.J.
Chloroplast thylakoid protein phosphorylation is influenced by mutations in the cytochrome *bf* complex (933) 413
Cox, G., see Lightowlers, R.N. (933) 241
Cremers, F.F.M., Voorhout, W.F., Van der Krift, T.P., Leunissen-Bijvelt, J.J.M. and Verkleij, A.J.
Visualization of contact sites between outer and inner envelope membranes in isolated chloroplasts (933) 334

Davidson, M.W., Gray, K.A., Knaff, D.B. and Krulwich, T.A.
Purification and characterization of two soluble cytochromes from the alkalophile *Bacillus firmus* RAB (933) 470
Davies, H.C., see Bolgiano, B. (933) 341
De Kouchkovsky, F., see Biaudet, P. (933) 487
Delpy, D.T., see Wray, S. (933) 184
De Silva, D.G.A.H., Powls, R. and Sykes, A.G.
Kinetic studies on redox reactions of *Scenedesmus obliquus* and *Anabaena variabilis* cytochrome *c*-553 with $[Fe(CN)_6]^{3-/4-}$ and $[Co(phen)_3]^{3+/2+}$ and comparisons with data for the corresponding reactions of plastocyanin from the same two algal sources (933) 460
De Vitry, C. and Wollman, F.-A.
Changes in phosphorylation of thylakoid membrane proteins in light-harvesting complex mutants from *Chlamydomonas reinhardtii* (933) 444
Diversé-Pierluissi, M. and Krogmann, D.W.
A zeaxanthin protein from *Anacystis nidulans* (933) 372
Drews, G., see Wacker, T. (933) 299
Dutton, P.L., see Packham, N.K. (933) 70

ElKurdi, A.B., see Goodhew, C.F. (933) 114
